

## **Payroll Giving**

There have been recent changes to tax issues in relation to charitable donations; and one of these changes relates to tax rebates for donations made through "Payroll Giving.

If you have considered getting your staff to make a regular donation to a charity, through Payroll Giving, now is the time to start.

Payroll Giving is certainly not a new initiative; having been around for a number of years.

Get your staff involved by promoting this in the workplace, and encourage the staff to get involved in giving to Koru Care Charitable Trust.

Koru Care Charitable Trust has been helping sick, terminally ill and disadvantaged children from throughout the country, by taking them on a trip of a lifetime.

The Children who go on the trips visit such places as Disneyland, Universal Studios, Knottsberry Farm, and so much more.

For these children the memories they come back with, they will cherish for the rest of their lives; and unfortunately for some this can be short.

Without out the support of the community Koru Care Charitable Trust would struggle to help make Dreams Come True for Koru Care kids.

For these reasons, and many, many more, we ask you to please tell your staff of the work of Koru Care Charitable Trust, and how they can help us continue to help children in the community.

For more information please contact us and we'll discuss the options for you.
